to Mohan

Dear Mr. Mohan,

Thanking you for taking all the risks to conduct this SPICE program in order to improve the knowledge and skills in English of our teachers in Mannar zone.

Really it was a valuable program that we experienced. What I felt was, it helped our teachers to equip themselves and to update their skills in speaking English. Hope they continue to practise with the children.

'If there is rice in the pot only you can take it with spoon.' There are teachers who need to be fed like us. If they have only, they can provide something to the children. If possible organize a spice program like ours to the teachers who can get profited. I think it will support them to bring out their talents in speaking English and it will be easy for them to apply in teaching and speaking English with the students.

Thank you.
Sr. Mary
