Dear Mohan,

Now that Thomas is home and we've had time to hear his experiences in Sri Lanka we wanted to write and thank you for all your hard work in organising his trip which seems to have been a great success.

Thomas was clearly looked after very well by the school and although it's unfortunate he didn't manage to get to some of the sights, such as Kandy, he was very happy being so involved in school life. Perhaps some time in his university holidays we can all go to Sri Lanka as a family and he can meet up with the friends he made.

Thank you, too, for the numerous phone calls you made to us - it was always good to know you were there to reassure us when we had any problems or doubts.

I understand from Thomas that you are keen to find more boys to do what Thomas has done. Our other son, George, is still at Gresham's School, so if you would like me to put you in touch with someone there or make enquiries about setting up a connection I would be happy to help.

With best wishes,

Richard + Sue.

P.S. If you're ever in Norfolk do contact us, we'd love to meet you!
